

FURNITURE FOR THE
CO-WORKING /
OFFICE

FOR CREATIVE
& SUSTAINABLE PEOPLE

MATTING

Stay active - wherever you are

The StandUp desk series was designed for tomorrow's activity-based or agile workstations and for the home office. The desks are manually height-adjustable and help improve well-being. They do not require electricity to reduce sedentary desk work at the office or in the home. They also provide the freedom to work anywhere you like. They are versatile, easy to place and have a timeless Scandinavian design. Designed by Dan Ihreborn, they are made in Småland from sustainable materials. Stand up and work; you will feel better, have more energy and be more creative.

StandUp MINIDESK

MINIDESK is a neat, movable, manually height-adjustable desk designed for the home workplace. The desk is designed to suit your home environment and make it possible to adjust your working height even on a firm surface. Minidesk's six different working positions make it easy to raise and lower the desktop and adapt your working position before starting work. Minidesk is easy to collapse and stow away. *Made in Småland, Sweden, from sustainable materials; design Dan Ihreborn.*

Designer Dan Ihreborn

Dan Ihreborn has worked as a freelance designer since 1991. He works with modern furniture design and as an interior designer he specialises in office environments. With 45 years in the industry, Dan has extensive experience and understands how furniture has changed over the years.

The collaboration with Matting has been ongoing since 2015. Dan Ihreborn's design assignments include StandUp Desk, StandUp Active Storage, StandUp Hanger and Jobmate Touch.

StandUp TRAPETS

TRAPETS is designed for activity-based or agile workstations. This is a versatile, height-adjustable desk in a timeless Scandinavian design that's easy to position and ideal for touchdown workstations, group combinations, co-working spaces and conference spaces. The trapezoidal design of the desktop is specially designed for flexible construction, allowing as much desk space as possible to be created over a small area, thereby saving floorspace. The desk is suitable for both conventional workplaces and home offices. The shape of the desktop is also ideal for a corner location. Manual height adjustment (no power supply necessary) makes furnishing and placement very easy. No need to worry about power sockets or cables on the floor. This desk is also available with a folding desktop and castors at the front. The desk is raised and lowered by a gas spring controlled by a lever at the side. Minimum height 75 cm; maximum 119 cm.

Made in Småland, Sweden, from sustainable materials; design by Dan Ithreborn.

Arrangement suggestions

StandUp CHOICE

StandUp CHOICE is a completely new chair concept, with new-generation design in its function and aesthetics. CHOICE was developed for simplicity and convenience. To make it easy to switch between standing and resting, for healthy, more active everyday life. With its timeless, Scandinavian design, CHOICE goes well in many different settings. Made in Småland, Sweden, from sustainable materials; design Dan Ihreborn.

“Developing a product without a vision for the future does not move our thinking forward, but is merely a reiteration of the same old requirements.”

Designer Dan Ihreborn

StandUp CHOICE – function for long life

With its movable seat and adjustable seat height, StandUp CHOICE makes it easy to switch between standing and resting. CHOICE chairs are stackable and easily moved aside. An optional upholstered seat is available in several fabrics and colours. CHOICE chairs are made in Sweden using sustainable materials.

- Mobility when sitting
- Optional flexible seat height
- Counteracts a static sitting posture
- Removable padded seat with hook-and-loop fastening
- Straightforward and easy to move away
- Stackable and easy to stow away
- Replaceable, recyclable parts for long life
- 5-year warranty
